

Session Program

14-15 Sept 2026

**Injectors and Beam Physics for Future
Accelerators**

High intensity beams for colliders

SLAC, 40/1-195 - Sycamore

Monday 14 September

09:30

High intensity beams for colliders

Session | **Location:** SLAC, 40/1-195 - Sycamore

09:30–09:50 **FCC-ee electron injector**

Speaker

Dr Steffen Doebert

09:50–10:10 **FCC-ee linac design and synergies with FACET-II**

Speaker

Dr Simona Bettoni

10:10–10:30 **Laser and photocathode research for FCC-ee**

Speaker

Eduardo Granados

10:30

11:00

High intensity beams for colliders

Session | **Location:** SLAC, 40/1-195 - Sycamore

11:00–11:20 **Laser control of electron beams**

Speaker

Stefano Redaelli

11:20–11:40 **EIC Injector challenges and possible tests at FACET-II**

Speaker

Erdong Wang

11:40
