Welcome to the 50th SLAC SUMMER INSTITUTE!!
Everything you need to know is on the SSI webpage.

50th SLAC SUMMER INSTITUTE

Golden Opportunities: Puzzles & Surprises - Past & Future

Date: August 8-19, 2022

The SLAC Summer Institute (SSI) is an annual two-week-long Summer School tradition since 1973. The theme of the 50th SLAC Summer Institute for this Golden Anniversary year's installment is "Golden Opportunities: Puzzles & Surprises - Past & Future". These SSI lectures will discuss how our attempts to solve and understand the various puzzles and surprises presented to us by nature, whether we have been successful or not, have pushed – and continue to push - our field forward. This SSI intends to inspire reinvigorated effort for new
Code of Conduct

The SLAC Summer Institute is a community event intended for networking and collaboration as well as learning. We value the participation of everyone and want all attendees to have an enjoyable and fulfilling experience. Accordingly, all attendees are expected to show respect and courtesy to other attendees and to abide by the following Code of Conduct. Any issues can be brought to the confidential attention of the organizers and we thank you for helping make these events welcoming and friendly event.

CODE OF CONDUCT

The community of participants of the SLAC Summer Institute is made up of members from around the globe with a diverse set of skills, personalities, and experiences. It is through these differences that our community experiences success and continued growth. We expect everyone in our community to follow these guidelines when interacting with others both inside and outside of our community. Our goal is to keep ours a positive, inclusive, successful, and growing community.

As members of the community,

- We pledge to treat all people with respect and provide a harassment- and bullying-free environment, regardless of sex, sexual orientation and/or gender identity, disability, physical appearance, body size, race, nationality, ethnicity, and religion. In particular, sexual language and imagery, sexist, racist, or otherwise exclusionary jokes are not appropriate.
- We pledge to respect the work of others by recognizing acknowledgment/citation requests of original authors. As authors, we pledge to be explicit about how we want our own work to be cited or acknowledged.
- We pledge to welcome those interested in joining the community, and realize that including people with a variety of opinions and backgrounds will only serve to enrich our community. In particular, discussions relating to pros/cons of various technologies, programming languages, and so on are welcome, but these should be done with respect, taking proactive measure to ensure that all participants are heard and feel confident that they can freely express their opinions.
We recognize that Stanford sits on the ancestral land of the Muwekma Ohlone Tribe. This land was and continues to be of great importance to the Ohlone people. Consistent with our values of community and inclusion, we have a responsibility to acknowledge, honor and make visible the university’s relationship to Native peoples.
Slides & links to videos of the lectures can both be found here as can the Q&A portals for each lecture.
Q & A

Practical/Technical Questions: use chat only to push questions to the organizers…NOT (!) questions for the lecturers. Physics questions on chat will be strictly ignored.

Physics Questions: use the presentation indico link “Submit questions” to write questions to the lecturers – these will be (partly) addressed during the Q&A after each talk; other answers will appear later but will be delayed. Please limit yourselves to concise questions!
Notice

Be careful, patient & considerate when downloading from the indico site
