

# K-series

Experience the power of our K-series, a range of high-performance RF Units designed for reliability and energy efficiency.

- Up to 100 MW RF Peak Power
- World-leading pulse to pulse stability, down to 8 ppm
- Broad range of klystrons (Canon, CPI, SLAC, Stellant, Thales)
- Wide range of different shape modifications for every pulse
- User-friendly interface
- High personnel safety

*ScandiNova*

The logo for ScandiNova, featuring the word "ScandiNova" in a blue, sans-serif font. The letter "i" in "Scandi" has a blue dot. The logo is positioned on the left side of a large, stylized blue graphic that resembles a double-strand DNA helix or a complex knot, extending across the top and right sides of the page.

# ScandiNova
