International Workshop on Future Linear Colliders

Contribution ID: 123 Type: Oral

Development of Dielectric Disk Accelerators

Wednesday, 17 May 2023 15:30 (30 minutes)

The progress on developing of dielectric disk accelerator will be presented. General challenges and future directions will be mentioned as well.

Primary author: JING, Chunguang (ANL/Euclid Techlabs)

Presenter: JING, Chunguang (ANL/Euclid Techlabs)

Session Classification: Accelerator: Normal Conducting RF

Track Classification: Accelerator: Normal Conducting RF
