ECFA Higgs Factories Study: Physics Analysis Tools

Thursday, 18 May 2023 09:30 (20 minutes)

ECFA kicked off a series of workshops in 2021 on Higgs/EW/top factories to bring together the efforts of various e^+e^- projects. Working groups on Physics (WG1), Physics Analysis Tools (WG2) and more recently on Detectors (WG3) were created. The activities of the Physics Analysis Tool group will be summarized with an emphasis on KEYHEP which was chosen as the software framework.
