

International Workshop on Future Linear Colliders

Contribution ID: 193

Type: **not specified**

Advances in Spanish Science Industry

Tuesday, 16 May 2023 13:55 (20 minutes)

Spanish Science Industry is developing technology, components systems and subsystems for particle accelerators world wide. The relationship of the industry with the scientific and technological institutes in Spain makes possible the advance of critical technologies that will be applied in the future accelerators as the International Linear Collider. During the presentation, key characteristics of Spanish Science Industry Sector and some developments related to advanced accelerators and specifically to ILC project will be presented

Presenter: FERNANDEZ, Erik (INEUSTAR, Spain)

Session Classification: Industry Plenary
