

UED Opportunities for Dynamical Imaging of Materials

Tuesday, 7 November 2023

Session TA - Chair: Yongqiang Wang (08:00 - 10:00)

time	[id] title	presenter
08:00	[13] TA01 - "Ultrafast Electron Diffraction of Density Waves and Other Superlattices" Anshul Kogar, UCLA	
08:20	[14] TA02 - "Probing ultrafast dynamics via ultrafast operando diffraction" Aaron Lindenberg, SLAC	
08:40	[15] TA03 - "Potential of ultrafast electron diffraction for studying materials dynamics" Reemu Pokharel, LANL	
09:00	[42] TA04 - "Opportunities for studying freely suspended liquid films by ultrafast electron diffraction" Alan Hurd, LANL	
09:20	[43] Discussion
