

# UED Opportunities for Dynamical Imaging of Materials

## Tuesday, 7 November 2023

**Session TC - Chair: Haoran Xu (14:00 - 15:30)**

| time  | [id] title                                                                                                   | presenter |
|-------|--------------------------------------------------------------------------------------------------------------|-----------|
| 14:00 | [19] TC01 - "MeV UED: a brief overview and recent developments at Tsinghua" - Renkai Li, Tsinghua University |           |
| 14:30 | [20] TC02 - "UED at Cornell with low emittance photocathodes" Jared Maxson, Cornell                          |           |
| 14:50 | [27] TC03 - "SLAC MeV-UED Experiences", Xiaozhe Shen, SLAC                                                   |           |
| 15:10 | [28] TC04 - Discussion                                                                                       |           |
