

# UED Opportunities for Dynamical Imaging of Materials

## Tuesday, 7 November 2023

**Session TD - Chair: Kip Bishofberger (16:00 - 17:00)**

time	[id] title	presenter
16:00	[29] TD01 - "UED at beam energies above 5 MeV" Pietro Musumeci, UCLA	
16:20	[30] TD02 - "Current status of MeV-UED/UEM and electron imaging optics development at BNL" Xi Yang, BNL	
16:40	[31] TD03 - "RUEDI and UED Beamline Design for Optimising Temporal Resolution", Julian McKenzie, Daresbury
