

# LArTPC R&D for MeV Physics

- Detecting MeV-scale  $\gamma$ s are relevant
  - GAMPix
  - Light detection system with higher detection efficiency
- Playing around configurations of the light detection system
- LArTPC infrastructure, SLArchetto and SLArPAAS at LNTF for demonstration of LArTPC R&Ds
  - DUNE ND-LAr: Field shell and laser-based calibration
  - Joined CERN DRD2 collaboration
