

New physMain ntuples

- 6 PhysMain runs with the GRL
- One PhysMain run with the GRL inverted (i.e. only containing “bad” events)
 - This run has known LAr issues in lumiblocks 463-465
 - <https://atlasdqm.cern.ch/defectentry/>
- ntuples can be found in /eos/home-m/mmcohen/ntuples/physMain
- Data is in the same format as the recent MC23e MC files
